

TREE PLANTING COMMUNITY DAY

Saturday, 8th October 2016

VOLUNTEERS NEEDED

Over the years, our beautiful estate has had various trees cut down due to ill health. As Wimbledon Park Estate prides itself on its beautiful garden, it is crucial that we continue to replace those trees lost and continue to retain its gorgeous natural settings.

We will therefore be carrying out our very first Tree Planting Community Day on the **8th October 2016**. The order of the day will be to plant various types of trees near the location where previous trees have been cut down. We will also be providing some refreshments during the day.

If you would like to get involved in helping us then please drop us an email on office@wimbledonpark.org or call us on **020 8780 9980**. As we are planning to provide some refreshments as a reward for your hard work, we will need to know how many volunteers we have to cater for.

We will notify you closer to the day of the meeting point and the time.

A Special thanks goes to the following: Mulalley & Co (*contractors carrying out the Window and External Decoration works*), who have kindly donated money towards the community event which will go towards the refreshments & materials for the day, World Wide Plants (our gardeners) for overseeing the works and lending us their tools and lastly to our resident G. Wood who donated all the trees.
